

Who we are?

Four Core Competencies

- **Customer Service:** Consistent, quick, communication delivered by customer friendly representatives with a passion to provide excellent service.
- **Content:** Curriculum developed that covers state mandated topics with interactivity which simulates discussion and understanding. Courses designed for caregivers on up to administrators working in care communities.
- **Quality:** Cost effective, efficient, convenient, friendly, delivering on the promise to provide the absolute best overall result.
- **Innovation:** Never satisfied with the status quo. Always looking for new ways to deliver high quality results.

The risks:

- Physical Environment
 - Lighting, clutter, slippery surfaces, broken pipes, etc.
- Resident Care
 - Bed Sores, Falls, Malnutrition, Behaviors, etc.
- Elder Abuse
- Slip & Fall...
 - “nursing home” ... we get lumped in of course...

Have you ever had an incident that prompted an investigation?

Risk Management is to:

 - Supply of staff is low
 - Demand of staff is high
 - Answer: Efficiency and Effectiveness through Technology.
- Thorough & Frequent Documentation & Reporting
 - We must document to establish:
 - Patterns
 - That we care
 - That we go the extra mile
 - That we notice the difference and that we communicate it to the appropriate stake-holders
 - And so we can prove that we did

- CDC Reports:
 - Millions of 65+ adults suffer injuries and traumatic brain injury (TBI) due to falls
 - Nursing Home Falls lead to 1,800 deaths annually
 - 81% of TBIs in 65+ is due to falls

Why Do They Fall?

- Effects of aging and/or inactivity on balance, gait and strength
- Disease and other medical conditions
- Side effects of medication
- Unsafe behavior

Prevent Falls by:

- Prevent Fainting
- Recognize the desire to move
- Ensure proper footwear
- Promote Exercise

- Poor lighting
- Cluttered living space
- Uneven floors, wet areas
- Unstable furniture
- Furniture, wheelchairs, walkers in disrepair
- Unsafe footwear
- Hard-to-manage clothing
- Inaccessible personal items (requiring residents to reach, stretch, bend over, etc.).

Narrative Text

Dora Valentin reports: in the bedroom on 9/27/19 at 12:21 pm. Gladys had a fall. I heard noise and when I checked, she was on the floor. I checked her for any bruises or skin tears, I noticed that she has a bruise on her left shoulder and it was purple. I notified Nurse, Mr. Joe Cool RN. I was told that mobile x-ray is

You'll see your Care Recipients (Residents, Clients) at a glance.
The context menu for each Care Recipient helps you either start a documentation (DocuLog) or to see their profile.

2

You can toggle between viewing tasks tha are due (or overdue) and the DocuLogs submitted that require an action or that have been approved within the past week.
Keep yourself up to date on the happenings of your Care Recipients, by reading through these periodically.

3

You can also springboard straight into documentation by clicking CREATE A DOCULOG, or you can see all your VENDORS, by clicking on VENDOR. Vendors are your health care partners: your Care Recipients' primary care team, a nurse practitioner, hospice nurse, etc.

Tablang Insurance Solutions

Living Benefits and Executive Bonus Plans

- Critical Illness / Millions will suffer from Heart Attack, Stroke or Cancer
- Chronic Illness / 2 out of 6 ADLs
- Terminal Illness / up to 24 months

Executive Bonus Plan

A tax-advantaged strategy

- **How Does it Work?**

Business pays premium to the insurance company and treats it as a bonus to the participant to fund personal life insurance

Participant has a tax-free death benefit for heirs or supplemental tax-advantaged income for retirement through policy loans or withdrawals

Life insurance accumulates cash value (This may be used by participant to pay taxes on the bonus)

- Reward yourself and key employees/executives
- Help create a secure retirement for plan owner
- Provides benefits in the event of becoming ill, live too long, or die too soon

Thank You

Presented by: Amy McNamara, General Manager

Lawsuits

- Do They Really Happen?

Yes.

- Insurance Company Fears/DSS red flags
 - Failure to Follow Doctor Orders
 - Assessments updated annually?
 - Medications given, stored & recorded properly?
 - Elopement
 - Alarms functioning on all exits?
 - Pressure Sores
 - Caregivers trained to document skin conditions?
 - What assessment tools do you use?

How were Premiums Determined in 2015?

Licensed w/no claims

How were Premiums Determined in 2019?

Licensed w/no claims or elopements; all POCs complete

How are Premiums Determined Now?

- Claim history
- Territorial
 - Claims in your zip code
- Years of experience
- DSS Records – even if POCs are complete
- Overall claims in the industry
- Risk management profile
 - Do you have and use training tools to maintain a high level of awareness among your caregivers?
 - (Does your insurance broker provide tools to support your facility?)

Why Risk Management

- Improve Quality of Care for Residents
- Protect Your Hard Work
- Protect Your Assets
- Reduce Cost of Insurance
- Minimize Business Interruption
- Help Each Other
 - Public image of Residential Care
 - Underwriter impressions of standards of management
 - Losses Anywhere in your State affects All Premiums

How has COVID-19 affected insurance?

- All liability policies include a communicable disease exclusion
- Underwriters want to know facility safety protocols
- Repeat citations for the same issue are high risk
- Fewer companies will quote residential care
- Premiums have increased 30-60% on average
- You need expertise on your side

Sierra Professional Insurance Services

Serving the 6Beds community since 2014 with education, training and all areas of insurance for your facilities.
